Gentlemen:

SUBJECT: SOUTH TEXAS PROJECT (STP) REQUALIFICATION EXAMINATION REPORT  
NO. 50-498/OJ 92-01; 50-499/OL 92-01

During the weeks of February 24 and March 2, 1992, NRC administered requalification examinations to 28 employees of your company who were licensed to operate the STP facility. NRC concluded that all examinees and crews passed all portions of the examination, and your requalification training program was evaluated as satisfactory.

Overall, we observed improvement in previously identified weak areas. Notable improvement was observed in the particular areas of crew communication, emergency operating procedure use in the dynamic simulator, and questions developed for the written examination.

We acknowledge your expenditure of time and resources to prepare for this evaluation and commend you on your success. Continued management attention and support may be appropriate to ensure that this current level of performance is maintained.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosure will be placed in the NRC Public Document Room.

Should you have any questions concerning this letter, please contact us.

Sincerely,
