Readiness Command  
5001 Eisenhower Avenue  
Alexandria, VA 22333

Gentlemen:

This letter is in response to your letter, dated May 16, 1983 from U.S. Army Calibration and Repair Center, Sacramento, for amendment of license number 04-04279-01. Additional information is needed to support your application.

We have discussed your application with the State of California. Neither the State of California nor the Nuclear Regulatory Commission is familiar with this particular source. Therefore you should contact J. L. Shepherd, Inc. to have this source registered with the State of California, or if it is a custom source for Army use only, submit the appropriate information according to the enclosed guide for a custom source, and have NRC register this source. If this source has already been approved as a custom source by NRC, please reference the NRC license number so we can confirm.

We will continue the review of your application upon receipt of the requested information. Please reply in duplicate and reference mail control number 14901. Should you have any questions, please call us at (301) 427-4228.

Sincerely,

Joseph C. Wang  
Material Licensing Branch  
Division of Fuel Cycle and  
Material Safety
