SUBJ: Request for Extension of Materials License Number  
04-02956-02.

Our Materials License, Number 04-02956-02, will expire August 31, 1984. Although we are preparing a request for renewal of our license, we are not ready to submit it at this time. Pursuant to a telephone call between our Radiation Safety Officer and Ms. Patricia Vacca of your office on July 11, 1984, we request an extension of our current license until November 30, 1984.

Dear Dr. Smith

We are forwarding in triplicate the request for renewal of our station NRC license. One copy is for your office and the other two are for NRC. We are somewhat late in getting the renewal request submitted due to the change in format and the detailed data requested for current relicensure. We were unable to complete Item 10 relating to calibration of our survey instruments and dose calibrator, but hope to submit this data within 30 days. We will appreciate your promptly forwarding this renewal request to NRC.
