

October 23, 1995

Mr. E. Kraft, Site Vice President
Quad Cities Station
Commonwealth Edison Company
22710 206th Avenue North
Cordova, IL 61242

Dear Mr. Kraft:

Thank you for your letter dated August 8, 1995, in response to our June 1, 1995, letter concerning the Unit 1 torus recoat effort in 1994 and the qualifications of a replacement Level III coating inspector at the Quad Cities Station. In our letter, we requested that you review deficiencies identified during the torus recoat effort that may not have been properly dispositioned, review the qualifications of a replacement Level III coating inspector that may not have met the requirements of ANSI N45.2.6-1978, and submit the results of your investigation to the NRC.

Your response indicated that the Unit 1 torus coating deficiencies had been properly evaluated and resolved, and that the replacement Level III coating inspector met the requirements of ANSI N45.2.6-1978 and appropriate station procedures.

We found your investigation to be sufficient to support your conclusions and have no additional questions regarding this matter. We request that you retain the supporting documentation for your investigation for a minimum of one year from the date of this letter.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter will be placed in the NRC Public Document Room.

Your cooperation is appreciated.

Sincerely,

William L. Axelson, Director
Division of Reactor Projects
