Dear Joe:

As we discussed last Wednesday in Bethesda, UCS has been formally denied access to at least one important GESSAR-related report, most of which has previously been provided to other members of the public. That report, an NRC-sponsored Brookhaven National Laboratory review of the GESSAR PRA (dated July 27, 1983), was given to others (S. Hiatt, January 3, 1984, FOIA-83-460) in its entirety except for parts of some tables and some text stating GE's PRA results.

A copy is enclosed for your information.

Sincerely,

S. J. Niemczyk
