Docket No. 50-267

SUBJECT: FORT ST. VRAIN LEVEL OF PROPERTY INSURANCE

REFERENCE: NRC letter, Erickson to Crawford, dated January 18, 1991 (G-91013)

Gentlemen:

In accordance with 10 CFR 50.54(w)(3), Public Service Company of Colorado (PSC) hereby reports the following levels and sources of nuclear property insurance for the Fort St. Vrain Nuclear Generating Station.

TYPE OF INSURANCE	INSURANCE CARRIER	INSURANCE AMOUNT
Primary Property Damage Insurance	American Nuclear Insurers (ANI)	\$281,000,000
Excess Property Damage Insurance	Nuclear Electric Insurance Limited (NEIL II)	\$1,000,000
TOTAL PROPERTY INSURANCE COVERAGE		\$282,000,000

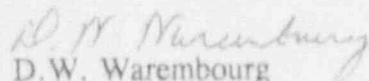

These levels of insurance reflect reductions from the nuclear property insurance levels identified in 10 CFR 50.54(w)(1). These reductions have been made pursuant to the NRC-approved property insurance exemption request forwarded to PSC in the above referenced letter, that allowed PSC to reduce its property insurance to a level of \$169,000,000. The insurance levels indicated above reflect a reduction to this approved level, as well as supplemental property insurance purchased at PSC's discretion to insure balance-of-plant assets.
