Mr. L. Robert Greger, Chief
Reactor Programs Branch
U.S. NUCLEAR REGULATORY COMMISSION
799 Roosevelt Road
Glen Ellyn, Illinois 60137

Dear Mr. Greger:

DOCKETS 50-266 AND 50-301
RADIOLOGICAL ENVIRONMENTAL MONITORING PROGRAM RESULTS 1991
POINT BEACH NUCLEAR PLANT, UNITS 1 AND 2

In response to Mr. R. B. Holtzman's routine announced inspection of the Point Beach Nuclear Plant's Radiological Environmental Monitoring Program (REMP) on May 16-17, 1990, Wisconsin Electric offered to provide the NRC with a copy of year-end REMP analytical results as well as the results of the vendors QA/QC Program of interlaboratory and intralaboratory comparisons in order to aid the NRC in its evaluation of the PBNP REMP (Report No. 50-266/90011 [DRSS]; No. 50-301/90011[DRSS], page 3).

Pursuant to this understanding, enclosed is one (1) copy of the January to December 1991 report from Teledyne Isotopes Midwest Laboratory (TIML) and one (1) copy of the TIML QA/QC results, Appendix A, from the January 1992 report.

We will be glad to answer any questions you have concerning these results.

Sincerely,

A handwritten signature in cursive script that reads 'James J. Zach'.
