NOTE TO: T. Speis  
FROM: D. Eisenhut  
SUBJECT: LIMERICK RISK EVALUATION REPORT

Your memorandum to me and others dated June 21, 1984 transmitted a final draft of the Limerick Risk Evaluation Report and noted that you expected to submit it soon for publication as a NUREG. The memorandum also stated that DST expected DL concurrence in the report.

Our comments on the report have been provided orally by the Limerick Project manager to the RRAB Branch Chief, Section Leader and Reviewer assigned to the Limerick PRA review. The PM has also assisted in coordinating the resolution and incorporation of comments received by RRAB from other parties to the final draft report. Based on DL participation, we believe that all comments have been resolved and incorporated appropriately into the final version of the report which as of July 30 is ready for your issuance to DL for transmittal to appropriate parties, including the applicant, the ACRS and the hearing board.
