Dear Mr. Liu:

This refers to the telephone conversations between Mr. Wilson of your staff and Mr. Kozak, of this office on March 27, 1992, regarding arrangements for an enforcement conference between members of our respective organizations. This meeting is scheduled for April 9, 1992, at 1:00 p.m., at the NRC Region III office at 799 Roosevelt Road, Building 4, Glen Ellyn, Illinois.

The purpose of this conference is to discuss the findings of the inspection conducted at your facility on March 17-27, 1992. The inspection identified apparent violations of NRC requirements 10 CFR Part 19.12. Please be prepared to discuss at the Enforcement Conference in both your oral presentation and in a concise written handout the root causes and contributing factors for these violations and concerns and your corrective actions taken and/or planned to preclude recurrence of these violations and improve implementation of your NRC-licensed program.

If you have any questions regarding this meeting, please contact R. L. Hague of my staff at (708) 790-5546.

Sincerely,

William L. Starnes
for Edward G. Greenman, Director
Division of Reactor Projects
