Subject: Braidwood Nuclear Power Stations Units 1 and 2
Braidwood Station Security Plan
NRC Docket Nos. 50-456 & 50-457
TAC Nos. 65275/65276

Enclosed is the original and three (3) copies of Revision 37 of the Braidwood Nuclear Power Station Security Plan. This revision eliminates certain security requirements for controlling access of personnel and materials into reactor containment in accordance with the deletion of paragraph (d) (8) of 10CFR 73.55 as published September 7, 1995 in the Federal Register. In addition, Chapter 7 was updated to include the actions taken when an individual outside the Protected Area is involuntarily terminated for cause.

Pursuant to 10CFR 50.54p, the signed original and three copies of the security plan revisions are being provided to your office. A copy of this letter and two copies of the security plan revisions are being sent to Region III.

We have concluded that these changes do not decrease the safeguards effectiveness of the plan. These enclosures contain Safeguards information which must be protected from public disclosure pursuant to 10CFR 73.21.

Sincerely,

for Marcia M. Johnson
Licensing Operations Director
