

November 21, 1995

U.S. Nuclear Regulatory Commission
Document Control Desk
Washington, D.C. 20555

Dear Sirs:

The attached document is an application for renewal of Idaho State University's AGN-201 reactor facility license Docket # 50-284, License # R-110. The current reactor license expires at midnight on December 23, 1995.

Idaho State University is technically and financially qualified to continue to operate the AGN-201 reactor in accordance with the applicable USNRC rules and regulations. The applicant is a major State educational institution in Idaho; its principal business is teaching, research, and extension work within the fields of study offered.

If you have any questions regarding the details of the application for license renewal, please contact Dr. Alan Stephens (Reactor Administrator) at (208) 526-4907 or Mr. David Clovis (Reactor Supervisor) at (208) 236-3637.

Sincerely,

Dr. Jonathan Lawson
Vice President of Academic Affairs
