GLEN ELLYN, ILLINOIS 60137

March 19, 1982

Consumers Power Company
ATTN: Mr. James W. Cook
Vice President
Midland Project
1945 West Parnall Road
Jackson, MI 49201

Gentlemen:

This relates to the Midland Project Quality Assurance Program control over the installation of instrumentation pertaining to the underpinning of the auxiliary building and appurtenances. Based on a telephone conversation on March 19, 1982, between Mr. B. Marguglio and W. Little of this office, we understand that you will:

1. Immediately suspend all underpinning instrumentation installation until:
 - a. Procedures or instructions and approved controlled drawings are developed to prescribe underpinning instrumentation installation activities (i.e., cable pulling, cable termination, instrument installation, and testing).
 - b. Plans and schedules are established to inspect and audit installation activities covered by a. above.
 - c. Region III has concurred that a. and b. above are completed. (Restart on parts of the installation may proceed after completing a., b., and c. for that part - e.g. cable pulling.)
2. Establish measures for the selection and review for the acceptability of purchased underpinning equipment and instrumentation.

James W. Cook

- 2 -

3. Evaluate all instrument installation activities performed prior to the work suspension, determine its acceptability or the need for rework and document the evaluation and disposition of non-conforming work.

Please inform us immediately if your understanding differs from that stated above.

James G. Keppler
Regional Administrator
