Gentlemen:

SUBJECT: Correction of Valve Number Transcription Error in OPPD Response to  
Notice of Violation (NRC Inspection Report No. 50-285/91-26)

Reference 2 provided Omaha Public Power District's (OPPD) response to a Notice of Violation (NRC Inspection Report No. 50-285/91-26) on failure to maintain containment integrity. As a corrective action, Item 3. B. of the response contained a list of valves for which locking devices would be procured and installed. A nonexistent valve number (SI-535) was inadvertently included due to a transcription error. Therefore, valve number SI-535 should be deleted from the list.

If you should have additional questions, please do not hesitate to contact me.

Sincerely,

*W. G. Gates*
