

April 1, 1992

Docket Nos. 50-275 and 50-323

Pacific Gas and Electric Company
77 Beale Street, Room 1451
San Francisco, California 94106

Attention: Mr. G. M. Rueger, Senior Vice President and General Manager
Nuclear Power Generation Business Unit

SUBJECT: FEMA EXERCISE REPORT FOR THE DIABLO CANYON NUCLEAR POWER PLANT
1991 ANNUAL EMERGENCY PREPAREDNESS EXERCISE

By letter dated February 27, 1992, the Federal Emergency Management Agency (FEMA) informed the NRC of the results of their observations of the offsite activities during the Diablo Canyon emergency preparedness exercise on August 22, 1991. The letter states there were no deficiencies identified; however, there were several areas identified that require corrective action. Copies of the FEMA letter and report are enclosed.

The FEMA report identifies seven areas requiring corrective actions. We request that you coordinate with the offsite authorities to ensure corrective actions are taken to resolve these areas.

Sincerely,

James H. Reese, Chief
Safeguards, Emergency Preparedness and
Non-Power Reactor Branch
