Gentlemen:

**THE SALEM - HOPE CREEK SECURITY PLAN, REVISION 5
SALEM AND HOPE CREEK GENERATING STATIONS
DOCKET NOS. 50-272, 50-311 AND 50-354**

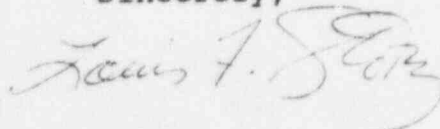

Public Service Electric and Gas Company (PSE&G) hereby submits Revision 5 of the Salem - Hope Creek Security Plan pursuant to the requirements of 10 CFR50.54(p). The Artificial Island Security Plan has been renamed The Salem - Hope Creek Security Plan. This title change does not alter the scope or content of the Plan and revision numbering will not be re-zeroed.

This revision reflects recent organizational changes which supersede those previously submitted in our letter, NLR-N95061, dated April 21, 1995, minor clarifications and additions to training requirements for station personnel who have duties under the Security Contingency Plan, and deletion of the requirement to post primary containments during outages or major maintenance per the Final Rule change to 10CFR73.55 (d)(8), published in the Federal Register, Volume 60, No. 173, dated September 5, 1995.

In accordance with 10CFR50.4(b)(4), the signed original and three copies are being sent to the Document Control Desk and two copies are being sent to the Region I Office.

Should you have any questions regarding this submittal, please contact Mr. Daniel Renwick, Nuclear Security Manager, at (609) 339-2244.

Sincerely,

Enclosure
