MS-016

Dear Mr. Fay:

We have reviewed your submittals of March 14 and September 6, 1983 concerning requesting Technical Specification changes to allow use of Westinghouse Optimized Fuel at the Point Beach Nuclear Plant Units 1 and 2. We request the additional information in the enclosure to this letter in order to complete our review. We understand that you have provided an additional submittal dated July 13, 1984 concerning this issue.

It is our intention to obtain the answers to the questions in the enclosure to this letter via a conference call with members of your staff and Westinghouse with a confirmatory written submittal to follow. A copy of the enclosure is being telecopied to Mr. Krause of your staff.

The NRC project manager, T. Colburn, will arrange the conference call and answer any questions you may have.

The reporting and/or recordkeeping requirements contained in this letter affect fewer than 10 respondents; therefore, OMB clearance is not required under P.L. 96-511.

Sincerely,

Original signed by:

James R. Miller, Chief
Operating Reactors Branch #3
Division of Licensing
