Dear Mr. Anderson:

Subject: NRC Inspection Report No. 50-293/92-03

This refers to the safety inspection conducted by Messrs. J. Macdonald, A. Cerne, and D. Kern of this office February 4 - March 16, 1992 at the Pilgrim Nuclear Power Station, Plymouth, Massachusetts. Areas relevant to the health and safety of the public examined during this inspection are described in the enclosed NRC inspection report. The results have been discussed with Mr. E. Kraft and other members of your staff at the conclusion of the inspection period.

Inspector observations continued to indicate safe, conservative plant operations. Station activities to improve overall reliability of the Station Blackout and Emergency Diesel Generators were good initiatives. In addition operator attentiveness to plant conditions was noted to be strong.

Your cooperation with us is appreciated.

Sincerely,
