Gentlemen:

The purpose of this letter is to inform the NRC staff of Carolina Power & Light Company's (CP&L) intent to convert the current Technical Specifications of the Brunswick Steam Electric Plant, Units 1 and 2, to the format contained in NUREG-1433, "Standard Technical Specifications, General Electric Plants, BWR/4, " Revision 1, April 1995. CP&L's current plan is to submit the license amendment request for this conversion in November, 1996, along with the basis for operating with extended (24-month) fuel cycles. Implementation of the ITS at the Brunswick Plant is scheduled for 1997. CP&L will keep the NRC staff informed of any changes to this schedule.

Please refer any questions regarding this submittal to Mr. George Honma at (910) 457-2741.
