Docket No. STN 50-605
September 26, 1989

Mr. Dino C. Scaletti, Project Manager
Standardization and Nonpower Reactor
Project Directorate
Division of Reactor Projects III, IV,
V and Special Projects
Office of Nuclear Reactor Regulation

Dear Dino:

Subject: Update of Fuel Related Portions of ABWR SSAR

Enclosed is the final draft of the fuel-related update to the ABWR SSAR that GE considers to better meet Design Certification objectives. Jan Charnley, who has led the development effort at GE, has communicated much of this information to Wayne Hodges since this effort was initiated early this year.

It is intended that GE will amend the SSAR accordingly in a future amendment.

Please note that Chapters 4 and 6 contain information of the type that GE customarily maintains in confidence and withholds from public disclosure. This information has been handled and classified as proprietary to GE. We hereby request that these documents be withheld from public disclosure in accordance with the provisions of 10CFR2.790.

Sincerely,

J. N. Fox
