SUBJECT: OPERATIONAL QUALITY ASSURANCE MANUAL CHANGE NOTICE 95-04  
RELATED TO TECHNICAL SPECIFICATIONS AUDIT REQUIREMENTS

We have reviewed your "Operational Quality Assurance Manual," Change Notice 95-04, submitted to us by your Letter ULNRC-3276 dated October 20, 1995. Change Notice 95-04 primarily added your Technical Specifications review and audit requirements to your operational quality assurance manual and reduced the Technical Specifications required audit frequencies. Your letter stated that you will be submitting a revised application to delete the audit requirements from the Technical Specifications.

Our review of Change Notice 95-04 included a comparison with the Callaway Plant Technical Specifications. Our review determined that the changes you have made will continue to meet 10 CFR 50 Appendix B requirements and are acceptable. However, these changes should not be implemented until the associated change to your Technical Specifications have been approved by the Office of Nuclear Reactor Regulation.

Any questions you may have concerning this review, should be directed to Mr. C. A. VanDenburgh of my staff at (817) 860-8161.

Sincerely,

  
Thomas P. Gwynn, Director  
Division of Reactor Safety
