

AUG 16 1984

MEMORANDUM FOR: R. C. Lewis, Director, Division of Reactor Projects,
Region II
D. H. Danielson, Chief, Materials Processes Section,
Division of Reactor Safety, Region III

FROM: Gary G. Zech, Chief
Vendor Program Branch
Division of Quality Assurance, Safeguards,
and Inspection Programs
Office of Inspection and Enforcement

SUBJECT: POSSIBLE DEFECTIVE WELDS IN C&D BATTERY RACKS AT
SHEARON HARRIS UNITS 1 AND 2 (VITS NOS. 83-048
AND 83-099)

The above item is being closed without action based on Carolina Power & Light Company's final report, dated April 18, 1983 to J. P. O'Reilly, Region II, which indicated that the subject item had been evaluated and was considered to be not reportable under the provisions of 10 CFR 50.55(e) and 10 CFR Part 21.

If you have any questions concerning this matter please contact Mr. R. E. Oller (8-492-9634).
