

April 3, 1992

Docket Nos. 50-369
and 50-370

Mr. T. C. McMeekin
Vice President, McGuire Site
Duke Power Company
12700 Hagers Ferry Road
Huntersville, North Carolina 28078-8985

Dear Mr. McMeekin:

SUBJECT: NRC BULLETIN 88-11 "PRESSURIZER SURGE LINE THERMAL STRATIFICATION"
FOR MCGUIRE NUCLEAR STATION, UNITS 1 AND 2 (TAC NOS. M72142/M72143)

Your letters dated March 10, April 12, May 10, August 21, and September 5, 1989, December 19, 1990, April 30, July 15, and December 31, 1991, and January 31, 1992, provide Duke Power Company's (DPC) response to NRC Bulletin 88-11 "Pressurizer Surge Line Thermal Stratification" for the McGuire Nuclear Station, Units 1 and 2.

The NRC letter dated August 1, 1991, informed you that the review of the Westinghouse Owners' Group (WOG) report (WCAP-12639) had been completed and could be used for McGuire Nuclear Station to satisfy Bulletin 88-11 Actions 1.c and 1.d provided that plant-specific applicability was demonstrated and additional analyses outside the scope of the WOG report were completed. DPC letters dated December 31, 1991 and January 30, 1992, addressed the remaining issues regarding plant-specific applicability and evaluation, including the additional analyses outside the WOG report necessary to complete Actions 1.c and 1.d of the Bulletin.

We have reviewed your responses and determined that the information DPC has provided adequately addresses each of the actions recommended by Bulletin 88-11. This concludes our review activities in response to your submittals regarding Bulletin 88-11 addressed by TAC numbers M72142/M72143.

Sincerely,

/s/

Timothy A. Reed, Project Manager
Project Directorate II-3
Division of Reactor Projects - I/II
Office of Nuclear Reactor Regulation
