Date

Inspection Summary

Inspection on July 26-27, 1984 (Report No. 50-461/84-22[DRSS])

Areas Inspected: Included a review of the licensee's actions in planning and scheduling for implementation of the security program. The inspection involved eight inspector-hours by one NRC inspector.

Results: The licensee had identified major program elements required to be implemented and had developed an implementation schedule for program completion. Construction activities for security functions appeared to be progressing adequately.
