Gentlemen:

We have received your letter dated March 16, 1992, which transmitted Revision 31 to the Wolf Creek Generating Station Radiological Emergency Response Plan. The plan revision was submitted pursuant to 10 CFR 50.54(q) and involved changes and references to the plant computer system which has been upgraded in the form of your Nuclear Plant Information System.

We have reviewed the changes and determined that they are acceptable and do not degrade the effectiveness of your emergency planning for Wolf Creek Generating Station. We understand that your Radiological Emergency Response Plan and procedures reference a new primary method for assessing offsite doses. This method which is referred to as the Emergency Dose Calculation Program will be reviewed during a future inspection.

Should you have any questions concerning this letter, please contact Dr. D. Blair Spitzberg of my staff at (817) 860-8191.

Sincerely,

Original Signed By
A. B. Beach
