RE: Family Foot Care

Dear Ms. Holt:

Please be advised that I received the Lixi, Inc./Stan A. Huber training course from Ken Wieselmann of Lixiscope of America on January 16, 1984. Attached is an outline of that course. The training course took approximately six hours and included safe use of the Lixiscope.

In addition, I have had hands-on experience demonstrating the Lixiscope to office based physicians, radiologists, and veterinarians. I also made numerous sales calls with Mr. Wieselmann to observe his demonstration techniques and the safe use of the Lixiscope. I have also attached my resume indicating many years experience selling medical products to physicians.

Very truly yours,

James A. Gilmartin

BIOTEC, INC.
