SUBJECT: NRC INSPECTION REPORT NO. 50-302/95-18

Gentlemen:

This refers to the inspection conducted by Resident staff of this office on September 17 through November 4, 1995, at the Crystal River facility. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observation of activities in progress. The purpose of the inspection was to determine whether activities authorized by the license were conducted safely and in accordance with NRC requirements.

The enclosed Inspection Report identifies activities that violated NRC requirements that will not be subject to enforcement action because the licensee's efforts in identifying and/or correcting the violation meet the criteria specified in Section VII.B of the Enforcement Policy. Therefore, no response with respect to these matters is required.
