NOTICE OF VIOLATION

Georgia Power Company  
Vogtle Unit 1 and 2

Docket No. 50-424, 50-425  
License No. NPF-68, NPF-81

During the NRC inspection conducted on September 17 through October 21, 1995, a violation of NRC requirements was identified. In accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," NUREG-1600 (60 FR 34381; June 30, 1995), the violation is listed below.

License Condition 2(E) to License Number NPF-68 issued March 16, 1987 and License Number NPF-81 issued March 31, 1989, requires the licensee fully implement all provisions of the NRC approved "Alvin W. Vogtle Nuclear Plant Physical Security Plan."

Paragraph 5.4.2.4 of the Physical Security Plan requires that designated vehicles inside the protected area not attended by an individual with unescorted access or a security officer as appropriate are secured to prevent movement. Possession of the keys by the authorized individual or security officer or physical restraint of the vehicle accomplishes this objective.

Procedure 00653-C, Protected Area Entry/Exit Control, Step 4.4.8, states that when a designated vehicle is left unattended in the protected area, the keys shall be kept by an authorized individual.

Contrary to the above, on September 21, 1995 designated vehicle number 12, was identified inside the protected area, unattended with the keys in the ignition.

This is a Severity Level IV violation (Supplement III).

Pursuant to the provisions of 10 CFR 2.201, Georgia Power Company is hereby required to submit a written statement of explanation to the U. S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, D. C. 20555, with a copy to the Regional Administrator, Region II, and a copy to the NRC Resident Inspector Vogtle Nuclear Plant, within 30 days of the date of the letter transmitting this Notice of Violation (Notice). This reply should be clearly marked as a "Reply to a Notice of Violation" and should include for each violation: (1) the reason for the violation, or if contested, the basis for disputing the violation, (2) the corrective steps that have been taken and the results achieved, (3) the corrective steps that will be taken to avoid further violations, and (4) the date when full compliance will be achieved.

Your response may reference or include previous docketed correspondence, if the correspondence adequately addresses the required response. If an adequate reply is not received within the time specified in this Notice, an order or Demand for Information may be issued as to why the license should not be modified, suspended, or revoked, or why such other action as may be proper should not be taken. Where good cause is shown, consideration will be given to extending the response time.

Because your response will be placed in the NRC PDR, to the extent possible, it should not include any personal privacy, proprietary, or safeguards information so that it can be placed in the PDR without redaction. However, if you find it necessary to include such information, you should clearly indicate the specific information that you desire not to be placed in the PDR, and provide the legal basis to support your request for withholding the information from the public.

Security or Safeguards Information should be submitted as an enclosure to facilitate withholding it from public disclosure as required by 10 CFR 2.790(d) or 10 CFR 73.21.
