

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555
April 10, 1992

Docket No. 50-443

Mr. Ted C. Feigenbaum
President and Chief Executive Officer
New Hampshire Yankee Division
Public Service Company of New Hampshire
Post Office Box 300
Seabrook, New Hampshire 03874

Dear Mr. Feigenbaum:

SUBJECT: CLOSEOUT OF NRC BULLETIN 88-10, NONCONFORMING MOLDED CASE CIRCUIT BREAKERS, SEABROOK STATION, UNIT 1, MPA XS10 (TAC NO. M71352)

The purpose of this letter is to inform you we have reviewed your response to NRC Bulletin 88-10 and now consider the issue closed.

By your letters number NYN-89035, dated March 31, 1989, number NYN-89071, dated May 31, 1989, number NYN-89103, dated August 11, 1989, and number NYN-90119, dated May 31, 1990, New Hampshire Yankee responded to NRC Bulletin 88-10 and NRC Bulletin 88-10, Supplement 1, for the Seabrook Station, Unit 1. In NYN-89035 you indicated the results of ongoing efforts to determine the procurement chain of molded case circuit breakers (MCCB's) in inventory with the potential for use in safety-related applications at Seabrook Station, and actions taken to date or planned with respect to MCCB's in this category for which the procurement chain is not traceable to a circuit breaker manufacturer (CBM). In NYN-89071, you presented an update describing the New Hampshire Yankee (NH) ongoing and planned actions to ensure that Class 1E MCCB's installed or in inventory at Seabrook Station were procured from a CBM. In NYN-89103, you indicated efforts to determine the traceability of Class 1E MCCB's, within the scope of the NRC Bulletin 88-10, have been completed to the extent possible.

In NYN-90119, you indicated NH has verified that actions described in NYN-89103 were fully responsive to NRC Bulletin 88-10 as clarified by Supplement 1, and NH reviewed construction related procurement records for MCCB's. In NYN-90119, NH concluded that letters NYN-89103 and NYN-90119 provide the complete response to NRC Bulletin 88-10 and its associated Supplement 1.

April 10, 1992

Based on our review of your submittals, we conclude that the actions taken to date fully respond to the issues identified in the subject bulletin. Therefore, we consider this issue closed and TAC No. M71352 is closed by this letter. The staff may conduct an inspection of your implementation at a later time.

Sincerely,

Original signed by
Gordon E. Edison, Senior Project Manager
Project Directorate I-3
Division of Reactor Projects - I/II
Office of Nuclear Reactor Regulation
