

ENCLOSURE 1

NOTICE OF VIOLATION

Georgia Power Company
Vogtle Unit 1 and 2

Docket No. 50-424, 50-425
License No. NPF-68, NPF-81

During the NRC inspection conducted on October 22 through November 18, 1995, a violation of NRC requirements was identified. In accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," NUREG-1600 (60 FR 34381; June 30, 1995), the violation is listed below.

10 CFR 50, Appendix B, Criterion XVI, Corrective Action, requires that corrective actions be taken to preclude repetition of significant conditions adverse to quality.

Contrary to the above, the licensee's corrective actions taken in response to two partially obstructed Nuclear Service Water System (NSCW) orifices detected in January 1995 were inadequate to preclude repetition. Specifically, six NSCW system orifices were found to be partially obstructed with debris between August 25, 1995, and September 3, 1995.

This is a Severity Level IV violation (Supplement I)

Pursuant to the provisions of 10 CFR 2.201, Georgia Power Company is hereby required to submit a written statement of explanation to the U. S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, D. C. 20555, with a copy to the Regional Administrator, Region II, and a copy to the NRC Resident Inspector Vogtle Nuclear Plant, within 30 days of the date of the letter transmitting this Notice of Violation (Notice). This reply should be clearly marked as a "Reply to a Notice of Violation" and should include for each violation: (1) the reason for the violation, or if contested, the basis for disputing the violation, (2) the corrective steps that have been taken and the results achieved, (3) the corrective steps that will be taken to avoid further violations, and (4) the date when full compliance will be achieved. Your response may reference or include previous docketed correspondence, if the correspondence adequately addresses the required response. If an adequate reply is not received within the time specified in this Notice, an order or Demand for Information may be issued as to why the license should not be modified, suspended, or revoked, or why such other action as may be proper should not be taken. Where good cause is shown, consideration will be given to extending the response time.

Because your response will be placed in the NRC Public Document Room (PDR), to the extent possible, it should not include any personal privacy, proprietary, or safeguards information so that it can be placed in the PDR without redaction. However, if you find it necessary to include such information, you should clearly indicate the specific information that you desire not to be

placed in the PDR, and provide the legal basis to support your request for withholding the information from the public.
