

APR 05 1992

Docket No. 50-219

Mr. John J. Barton  
Vice President and Director  
GPU Nuclear Corporation  
Oyster Creek Nuclear Generating Station  
Post Office Box 388  
Forked River, New Jersey 08731

Dear Mr. Barton:

Subject: NRC Inspection No. 50-219/92-06

An unannounced safety inspection of the radiological controls program at your facility was conducted by P. O'Connell March 23 to 27, 1992. Areas inspected were important to worker health and safety and included the status of previous items, internal exposure controls, training, facility tours, and your program for maintaining radiation exposures as low as reasonably achievable (ALARA).

The inspector noted that you have in place effective training programs for the radiation protection technician staff. In addition, your programs for implementation of the whole body counters and maintaining and issuing respiratory protection devices were found to be effective. No areas for improvement were identified in the areas reviewed.

Within the scope of this inspection, no safety concerns or violations of regulatory requirements were identified. No response to this letter is required.

Your cooperation with us is appreciated.

Sincerely,

Original Signed By:  
James H. Joyner
