Change 6 to Revision 18 of the Physical Security Plan

Gentlemen:

PG&E letter DCL 95-092, dated May 5, 1995, and supplemental PG&E letters DCL 95-161, dated July 28, 1995, DCL 95-199, dated September 14, 1995, and DCL 95-204, dated September 19, 1995, requested an exemption to 10 CFR 73.55(d)(5) and provided a draft of proposed changes to the Diablo Canyon Power Plant's (DCPP) Physical Security Plan (PSP). The NRC approved the exemption on September 21, 1995.

Enclosures 1 and 2 contain safeguards information regarding changes to the DCPP PSP. These changes do not decrease the safeguards effectiveness of the PSP and are submitted pursuant to 10 CFR 50.54(p), and NRC letter dated September 21, 1995, from James C. Stone, Senior Project Manager, Project Directorate IV-2, Division of Reactor Projects III/IV, Office of Nuclear Reactor Regulation.

Enclosure 1 identifies and describes the reasons for the changes.

Enclosure 2 provides the changed pages for insertion into Revision 18 of the PSP. Revision bars are on each page with changed section(s).

Sincerely,

Gregory M. Rueger
