SUBJECT: FEDERAL EMERGENCY MANAGEMENT AGENCY IDENTIFIED DEFICIENCIES AT THE  
OCTOBER 18, 1995, CALLAWAY NUCLEAR PLANT EXERCISE

Enclosed is a letter from Mr. John A. Miller, Regional Director, Federal  
Emergency Management Agency, Region VII, dated October 26, 1995, which  
notified the State of Missouri of deficiencies identified during the  
October 18, 1995, Callaway Nuclear Plant exercise.

Six deficiencies were identified. The deficiencies involved formulation and  
dissemination of accurate information and instructions to the public (State of  
Missouri and Gasconade County), prompt alert and notification of the public  
[Gasconade and Montgomery Counties (twice for Montgomery County)], and traffic  
flow and access control (Montgomery County).

We request that you assist off-site officials with corrective actions as  
necessary and track the State's corrective actions for these deficiencies.  
Please keep this office informed of the status of resolution of these issues.

Sincerely,

  
Thomas P. Gwynn, Director  
Division of Reactor Safety
