Gentlemen:

This refers to the inspection conducted by Mr. R. A. Caldwell of this office during the period May 29 - June 6, 1984, of activities authorized by NRC Construction Permit CPPR-126 for Comanche Peak Steam Electric Station, Unit 1, and to the discussion of our findings with Mr. J. C. Kuykendall and other members of your staff at the conclusion of the inspection.

Areas examined during the inspection were an assessment of the implementation of the security plan and the status of the security procedures in anticipation of reactor licensing. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the inspector. These findings are documented in the enclosed inspection report.

Within the scope of the inspection, no violations or deviations were identified.

The material enclosed herewith contains Safeguards Information as defined by 10 CFR 73.21 and its disclosure to unauthorized individuals is prohibited by Section 147 of the Atomic Energy Act of 1954, as amended. Therefore, the material, with the exception of the report cover page which is an inspection summary, will not be placed in the Public Document Room.
