The U.S. Nuclear Regulatory Commission (the Commission) has granted a request by the Public Service Electric and Gas Company and Atlantic City Electric Company (the licensees) to withdraw their October 17, 1991 application for an amendment to Facility Operating License No. NPF-57, issued to the licensee for operation of the Hope Creek Generating Station, located in Lower Alloways Creek Township, Salem County, New Jersey. Notice of Consideration of Issuance of this amendment was published in the FEDERAL REGISTER on November 13, 1991 (56 FR 57703).

The purpose of the licensees' amendment request was to revise the Technical Specifications to modify the minimum channels operable requirement of the Suppression Pool Water Temperature Instruments.

Subsequently, the licensees informed the staff that the amendment is no longer requested. Thus, the amendment application is considered to be withdrawn by the licensees.

For further details with respect to this action, see (1) the application for amendment dated October 17, 1991, and (2) the staff's letters dated March 20, 1992 and April 13, 1992.

These documents are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, N.W., Washington, D.C. and at the Pennsville Public Library, 190 S. Broadway, Pennsville, New Jersey 08070.

Dated at Rockville, Maryland this 13th day of April 1992.
