

7438-2

JOINT NUMBER
PROPOSED RULE PR-19, 20, 30 et al.
(50 FR 51992) (275)

Office of
BARBARA MARKOFF

May 14, 1986

To Whom This May Concern:

I am writing to express my concern about the new NRC rule. I do not want this new rule passed on radiation standards unless it reduces or eliminates "acceptable" exposure.

I would like to see an Environmental Impact Statement done on the rule before it is finalized. We must take all known health effects into consideration before this crucial decision is made.

Sincerely,
Barbara Markoff
