Mr. Robert L. Waldrum  
Assistant Counsel  
Arkansas Public Service Commission  
Markham and Victory Streets  
P. O. Box C-400  
Little Rock, Arkansas 72203

Dear Mr. Waldrum:

SUBJECT: NRC INVESTIGATION OF SAFETY DEFICIENCIES AT GRAND GULF I  
AND II AND WATERFORD NUCLEAR FACILITIES

Referencing your letter of July 5, 1984 on the above subject, enclosed are copies of the Grand Gulf I and II 1984 inspection reports that contain items of non-compliance. Based on your subsequent conversation with James Partlow of our staff, I understand that the information pertaining to Waterford is no longer required.

The NRC Office of Investigations recently completed two reports on the alleged falsification of training records. Both reports have been referred to the Department of Justice for review. The Department of Justice has specifically requested that the contents of the reports not be released to the public at this time.

Sincerely,
