SUBJECT: DRAFT DOCUMENT COMMENTS

Dear Dr. Bernard:

This is in reply to your letter of November 28, 1995, in which you stated that you would not be able to complete review and provide comments on our draft format and content guidance and standard review plan by the end of the comment period. Although we plan to issue the documents in final form in the near future, we intend that the document be a living document, and plan to update it on a regular basis as experience with the document is gained. As an experienced non-power reactor operator, your comments on these documents are important to us. Whenever your comments are received, they will be carefully considered for the next revision of the document.

If you have any questions concerning our project to produce guidance documents for non-power reactors, please contact me at 301-415-1127.

Sincerely,

Original signed by:
