Docket No. 50-330

Consumers Power Company
ATTN: Mr. James W. Cook
Vice President
Midland Project
1945 West Parnall Road
Jackson, MI 49201

Gentlemen:

This refers to the meeting conducted by Messrs. H. Livermore, B. Burgess, and P. Hiland of the NRC Region III staff with Messrs. S. Lucks, P. Amcruso, and others of Stone & Webster (S&W), and Messrs. D. Quamme, J. Mooney, and others of your staff on July 12, 1984 with followup conducted on August 14, 1984, to discuss the Remedial Soils and Construction Completion Program (CCP) independent third party assessment/overview activities. This meeting was the required monthly meeting, which due to the cancellation of the June monthly meeting, also covered the previous month's activities. The meeting was conducted in accordance with the protocol established with Consumers Power Company for the Stone & Webster activities as related to the Midland Nuclear Project.

The enclosed copy of our report together with the attached Stone & Webster weekly reports and the meeting minutes, identify topics discussed during the meeting. The previous two months' (May and June 1984) activities were specifically reviewed. This was accomplished by a Stone & Webster presentation of the Remedial Soils and Construction Implementation Overview (CIO) areas which highlighted work and quality activities, problems encountered, observations made, reporting of nonconformances, and resolutions for those nonconformances. Following the presentations, there was a question and answer session between the NRC, Stone & Webster, and Consumers Power Company. This meeting was open to members of the public. This was the final monthly meeting due to the suspension of construction by Consumers Power.
