

Enclosure 1
NOTICE OF VIOLATION

GPU Nuclear Corporation
Three Mile Island Nuclear Generating Station - Unit 1

Docket No. 50-289
License No. DPR-50

During an NRC inspection conducted on September 25-29, 1995, a violation of NRC requirements was identified. In accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions (NUREG 1600)," (60 FR 34381; June 30, 1995), the violation is listed below:

Technical Specification (TS) 6.8.1 states, in part, that written procedures shall be established, implemented, and maintained covering certain activities, including the applicable procedures recommended in Appendix "A" of Regulatory Guide 1.33, Revision 2, February 1978, which includes radiation protection procedures. The licensee's Radiation Protection Procedure Number 6610-ADM-4110.07, entitled, "Radiography Operations," states, "entry into a radiography area can only be authorized by the radiographer, the Operations Shift Supervisor, and General Radiological Controls Supervisor concurrence, and only if the source is in its stored position."

Contrary to the above, on September 6, 1995, an unauthorized individual entered a radiography area that was posted and barricaded to prevent unauthorized entry.

This is a Severity Level IV violation (Supplement IV).

Pursuant to the provisions of 10 CFR 2.201, GPU Nuclear Corporation is hereby required to submit a written statement or explanation to the U. S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, D.C. 20555 with a copy to the Regional Administrator, Region I, and a copy to the NRC Resident Inspector at the Facility that is the subject of this Notice of Violation (Notice). This reply should be clearly marked as a "Reply to a Notice of Violation" and should include: (1) the reason for the violation, or, if contested, the basis for disputing the violation, (2) the corrective steps that have been taken and the results achieved, (3) the corrective steps that will be taken to avoid further violations, and (4) the date when full compliance will be achieved. Your response may reference or include previous docketed correspondence, if the correspondence adequately addresses the required response. If an adequate reply is not received within the time specified in this Notice, an order or a Demand for Information may be issued as to why the license should not be modified, suspended, or revoked, or why such other action as may be proper should not be taken. Where good cause is shown, consideration will be given to extending the response time.

Because your response will be placed in the NRC Public Document Room (PDR), to the extent possible, it should not include any personal privacy, proprietary, or safeguards information so that it can be placed in the PDR without redaction. However, if you find it necessary to include such information, you should clearly indicate the specific information that you desire not to be placed in the PDR, and provide the legal basis to support your request for withholding the information from the public.

Dated at King of Prussia, Pennsylvania
