Mr. E. E. Fitzpatrick
Vice President
Indiana Michigan Power Company
1 Riverside Plaza
Columbus, OH 43216

SUBJECT: REVIEW OF REVISION 14 TO THE COOK NUCLEAR PLANT'S EMERGENCY PLAN

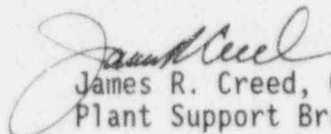

Dear Mr. Fitzpatrick:

In May 1995, Region III received Revision 14 to the Cook Nuclear Plant's emergency plan. We have reviewed this revision and determined that it is acceptable and does not decrease the effectiveness of your emergency planning.

Revision 14 included clarifications on which personnel could fill certain emergency response positions and revised titles for some positions in the plant's normal organization. Updated information was provided on the site's radiological environmental monitoring program and the plant's radiation monitoring system. Added information was provided on those responsible for approving changes to the plan and its implementing procedures. Letters of agreement with four offsite support organizations were updated. Revision 14 also included other clarifications, information updates and editorial changes.

If you have any questions, please have your staff contact Mr. T. Ploski of my staff at (708) 829-9812.

Sincerely,

James R. Creed, Chief
Plant Support Branch 1
