SUBJECT: NRC INSPECTION REPORT 030-00950/95-01 AND NOTICE OF VIOLATION

This refers to the routine, unannounced inspection conducted by Messrs. Jeffrey Cruz and Richard A. Leonardi, Jr., of this office on November 27, 1995. The inspection included a review of activities authorized by Byproduct Material License 35-11132-01. At the conclusion of the inspection, the findings were discussed with members of your staff. In addition, the inspection findings were discussed with you during a telephonic exit briefing on December 6, 1995.

The inspection was an examination of activities conducted under the license as they relate to radiation safety and to compliance with the Commission's rules and regulations and the conditions of the license. The inspection consisted of selective examinations of procedures and representative records, interviews of personnel, independent measurements, and observation of activities in progress. The purpose of the inspection was to determine whether activities authorized by the license were conducted safely and in accordance with NRC requirements.

Based on the results of this inspection, certain of your activities appeared to be in violation of NRC requirements, as specified in the enclosed Notice of Violation (Notice). The violation involved the failure to evaluate and maintain records of leak test results in units of microcuries as required by the conditions of the license. This violation is of concern because it was also identified during our previous inspection conducted on July 23, 1990. Based on the results of this inspection, it appears that corrective actions taken in response to our previous inspection findings were not effective. Therefore, in the response discussed below, you should pay particular attention to actions planned or taken to prevent future similar violations.

You are required to respond to this letter and should follow the instructions specified in the enclosed Notice when preparing your response. In your response, you should document the specific actions taken and any additional actions you plan to prevent recurrence. Your response may reference or include previous docketed correspondence, if the correspondence adequately addresses the required response. After reviewing your response to this Notice, including your proposed corrective actions and the results of future inspections, the NRC will determine whether further NRC enforcement action is necessary to ensure compliance with NRC regulatory requirements.

PDR ADOCK 03000950  
C PDR

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter, its enclosure(s), and your response will be placed in the NRC Public Document Room (PDR). To the extent possible, your response should not include any personal privacy or proprietary information so that it can be placed in the PDR without redaction.

The responses directed by this letter and the enclosed Notice are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, Pub. L. No. 96.511.

Should you have any questions concerning this letter, please contact Jeffrey Cruz at (817) 860-8164 or Linda L. Howell at (817) 860-8213.

Sincerely,

A handwritten signature in cursive script, appearing to read "Ross A. Scarano".

Ross A. Scarano, Director  
Division Nuclear Material Safety
