

Docket No. 50-298

April 13, 1992

Mr. Guy R. Horn  
 Nuclear Power Group Manager  
 Nebraska Public Power District  
 Post Office Box 499  
 Columbus, Nebraska 68602-0499

Dear Mr. Horn:

SUBJECT: EMERGENCY RESPONSE DATA SYSTEM IMPLEMENTATION PLAN

The U.S. Nuclear Regulatory Commission (NRC) has reviewed the Emergency Response Data System (ERDS) implementation plan which was submitted by Nebraska Public Power District in a letter dated October 25, 1991. Based upon this review, the NRC has found that your implementation plan provides the basis for an acceptable implementation of ERDS at your facility.

Be advised that the testing phase of ERDS implementation involves all licensees testing with the NRC contractor, Halliburton NUS Environmental Corporation. Since the contractor does not have unlimited resources for testing multiple ERDS links simultaneously, close coordination with the Halliburton NUS personnel in scheduling your ERDS testing will be a key element in the successful completion of ERDS implementation. The project manager at Halliburton NUS is Mr. Tony LaRosa, and he may be reached at (208) 524-9227.

If you have any questions or problems in implementing the ERDS program, please contact Mr. John Jolicoeur, the NRC ERDS project manager, at (301) 492-4155 or me.

Sincerely,  
 ORIGINAL SIGNED BY  
 Roby B. Bevan, Jr., Project Manager  
 Project Directorate IV-1  
 Division of Reactor Projects III/IV/V  
 Office of Nuclear Reactor Regulation
