

NOTICE OF VIOLATION

Virginia Electric and Power Company
North Anna 2

Docket No.: 50-339
License No.: NPF-7

During an NRC Inspection conducted on October 22 through November 18, 1995, a violation of NRC requirements was identified. In accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," NUREG 1600, the violation is listed below:

Unit 2 Technical Specifications Limiting Condition for Operation 3.6.1.3.a requires that each containment air lock be operable with both doors closed except when used for transit. With one air lock door inoperable, Technical Specifications Limiting Condition for Operation 3.6.1.3, action "a" requires that the operable door be maintained closed and locked within 24 hours or that the plant be placed in hot standby within the next 6 hours and placed in cold shutdown within the following 30 hours.

Contrary to this requirement, during the period from approximately 4:00 p.m. on November 1, until approximately 4:30 p.m. on November 6, the Unit 2 containment air lock outer door was inoperable due to valve 2-CE-4 being left opened and uncapped. During this time period, the remaining operable air lock door was not locked nor was the plant placed in hot standby followed by cold shutdown.

This is a Severity Level IV violation (Supplement I).

Pursuant to the provisions of 10 CFR 2.201, Virginia Electric and Power Company is hereby required to submit a written statement or explanation to the U.S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, D.C. 20555 with a copy to the Regional Administrator, Region II, and a copy to the NRC Resident Inspector at the facility that is the subject of this Notice, within 30 days of the date of the letter transmitting this Notice of Violation (Notice). This reply should be clearly marked as a "Reply to a Notice of Violation" and should include for each violation: (1) the reason for the violation, or if contested, the basis for disputing the violation, (2) the corrective steps that have been taken and the results achieved, (3) the corrective steps that will be taken to avoid further violations, and (4) the date when full compliance will be achieved. Your response may reference or include previous docketed correspondence, if the correspondence adequately addresses the required response. If an adequate reply is not received within the time specified in this Notice, an order or Demand for Information may be issued as to why the license should not be modified, suspended, or revoked, or why such other action as may be proper should not be taken. Where good cause is shown, consideration will be given to extending the response time.

Because your response will be placed in the NRC Public Document Room (PDR), to the extent possible, it should not include any personal privacy, proprietary,

ENCLOSURE 1

or safeguards information so that it can be placed in the PDR without redaction. However, if you find it necessary to include such information, you should clearly indicate the specific information that you desire not to be placed in the PDR, and provide the legal basis to support your request for withholding the information from the public.
