Dear Sir:

In the referenced letter, PECO Energy Company provided to the U. S. Nuclear Regulatory Commission (USNRC) a revised version of the "Inservice Inspection (ISI) Program Second Ten Year Interval." Attachments for your reference are updated sections of the Second Ten Year Interval Inservice Inspection (ISI) Program. This revision is identified as Addendum 1 to Revision 2. These sections include the text portion of the program, Appendix A ("Relief Requests"), Appendix B ("Augmented Programs"), and Appendix C ("Reference Drawings"). This revision is an administrative revision and does not constitute a revision to the implementation of the ISI program. The purpose of this addendum is to: 1) update the Augmented Inspection Programs applicable to reactor pressure vessel internals to reflect the latest Boiling Water Reactor Vessel and Internals Project (BWRVIP) based planning, 2) incorporate other changes resulting from the transition of the programmatic responsibility from the Nuclear Group Headquarters to the station, 3) reflect additional plant modifications, and, 4) incorporate miscellaneous programmatic adjustments.
