SUBJECT: NRC PREDECISIONAL ENFORCEMENT CONFERENCE (REPORT
NOS. 50-254/95011(DRS); 50-265/95011(DRS))

Dear Mr. Kraft:

This refers to a Predecisional Enforcement Conference conducted by Mr. Hubert J. Miller, Regional Administrator, and other members of the Region III staff on November 21, 1995. The subject of this conference was the events at your Quad Cities Nuclear Power Station facility associated with the apparent failure to 1) take corrective actions to address the previously identified potential for multiple safety-related 480 Vac Motor Control Centers (MCCs) to be overloaded; and 2) establish an effective program to control MCC load growth to prevent MCC feed breaker tripping due to overloading. This conference was closed to the public. We have enclosed a report summarizing the discussion.

You will be notified by separate correspondence of our decision regarding the enforcement action based on the information presented and discussed at the conference. No response is required until you are notified of the proposed enforcement action.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and enclosed inspection report will be placed in the NRC Public Document Room.
