NOTICE OF VIOLATION

Tennessee Valley Authority
Browns Ferry

Docket Nos. 50-259, 260, 296
License Nos. DPR-33, 52, 68

The following violation was identified during an inspection conducted on May 8 - 11, 1984. The Severity Level was assigned in accordance with the NRC Enforcement Policy (10 CFR Part 2, Appendix C).

Technical Specification Section 6.3.A.10 requires written fire protection and prevention procedures to be prepared, approved and adhered to. TVA's Fire Prevention Procedure Standard Practice BF14.19, Temporary Fire Loads, requires the control of temporary fire loads within critical areas of the plant to assure protection of safety-related equipment and to auxiliary equipment and facilities needed for generating capability. This procedure requires an evaluation to assure that temporary fire loads will not exceed the capability of the permanently installed fire protection systems. The evaluation is required to be completed and temporary fire load permit Form BF-35 is required to be completed and posted prior to the introduction of the temporary fire load.

Contrary to the above, a temporary fire load evaluation had not been made and Temporary Fire Load Permit Form BF-35 had not been posted for the combustible materials, packing items, and equipment located within Control Bay Room 458. This material presented an exposure fire hazard to shutdown board room and battery room No. 1A.

This is a Severity Level V violation (Supplement I).

Pursuant to 10 CFR 2.201, you are required to submit to this office within 30 days of the date of this Notice, a written statement or explanation in reply, including: (1) admission or denial of the alleged violation; (2) the reasons for the violation if admitted; (3) the corrective steps which have been taken and the results achieved; (4) corrective steps which will be taken to avoid further violations; and (5) the date when full compliance will be achieved.

Security or safeguards information should be submitted as an enclosure to facilitate withholding it from public disclosure as required by 10 CFR 2.790(d) or 10 CFR 73.21.
