I&E Bulletin
80-13

ATTENTION: Mr. James P. O'Reilly

GENTLEMEN:

Pursuant to the requirements of NRC I&E Bulletin 80-13, "Cracking In Core Spray Spargers," please be advised that a visual inspection was performed on the Hatch Unit 2 Core Spray spargers and associated piping during the 1984 maintenance/refueling outage. Using remote underwater television cameras (with the required viewing in situ of 0.001 inch diameter fine wires), no cracking of the Core Spray spargers or in-vessel piping was observed.

Should you have any questions in this regard, please contact this office.

Sincerely yours,

L. T. Gucwa
