Licensing Examination

Dear Dr. Hunter:

The materials requested in the Reference have been made available to Messrs. Cooley and Hamrick for their use in developing license examinations for operators at Wolf Creek Generating Station.

Setpoints contained in plant procedures have not been finalized for all systems. Wolf Creek Training personnel will provide training for all cold licensed operators on plant procedure changes, as well as training on modifications to plant systems and equipment prior to plant operations and during their continuing requalification training program.

If you have any questions concerning this matter, please contact me or Mr. Otto Maynard of my staff.

Yours very truly,

*Glenn L. Koester*
