Amendment 14

Dear Mr. Denton:

The Cleveland Electric Illuminating Company, acting on its own behalf and as agent for Toledo Edison, Ohio Edison, Duquesne Light, and Pennsylvania Power, is filing herewith three originals plus 60 copies of Amendment 14 to the Final Safety Analysis Report (FSAR) for the Perry Nuclear Power Plant, Units 1 and 2.

This Amendment revises the Steam and Power Conversion System (Chapter 10) and Radioactive Waste Management (Chapter 11), based on the results of our ongoing FSAR review program. Additional changes were made to: Environmental Qualification of Mechanical and Electrical Equipment (Section 3.11), Containment Systems (Section 6.2), Conduct of Operations (Chapter 13), Quality Assurance (Chapter 17) and other miscellaneous sections.

This Amendment is in a format designed to keep current the license application and FSAR. Please insert the revised Amendment 14 material dated August 22, 1984, into the Final Safety Analysis Report as per the attached Amendment 14 Instruction Sheet.

Very truly yours,
