Gentlemen:

Vogtle Electric Generating Plant
Nuclear Security Training and Qualification Plan
Revision 7-Section 3.6 Clarification

Georgia Power Company (GPC) submitted Revision 7 of the Vogtle Electric Generating Plant Nuclear Security Training and Qualification Plan per 10 CFR 50.54(p) on March 2, 1992. The NRC reviewed the submitted revision and found most of the items revised to be consistent with the provision of 10 CFR 50.54 (p). However, in the letter of March 27, 1992, the NRC requested one clarification to Section 3.6, "Mental Qualification". Therefore, in response to this request, GPC clarifies Section 3.6 to indicate that alarm station operators must also demonstrate emotional stability. Enclosure one contains insertion instructions for this clarification to Revision 7 of the TQP, while enclosure two contains the new Section 3.6 reflecting this clarification.

Please contact this office if you have any questions.

Sincerely,

C. K. McCoy
